

# Project 2: Cloud Vendor Presentation

Course: CMIT 326 6383 Cloud Technologies (2232)

Criteria	Exceeds Performance Requirements	Meets Performance Requirements	Approaches Performance Requirements	Does Not Meet Performance Requirements	Criterion Score
1.1.1: Articulate the main idea and purpose of a communication.	6 points Articulates fully and clearly the main idea and purpose of the communication.	5.1 points Articulates the main idea and purpose of a communication.	4.5 points Attempts to articulate the main idea and or purpose of the communication, but one or both is not clear.	0 points Does not attempt to articulate the main idea and purpose of communication.	/ 6
1.1.2: Support the main idea and purpose of a communication.	6 points Supports fully and appropriately the main idea and purpose of communication.	5.1 points Supports the main idea and purpose of communication.	4.5 points Attempts to support the main idea and/or purpose of the communication, but the support is lacking in some areas.	0 points Does not support the main idea or purpose of communication.	/ 6

Criteria	Exceeds Performance Requirements	Meets Performance Requirements	Approaches Performance Requirements	Does Not Meet Performance Requirements	Criterion Score
2.1.1: Identify the issue or problem under consideration.	6 points Identifies the issue or problem under consideration in a clear and thorough manner.	5.1 points Identifies the issue or problem under consideration.	4.5 points Attempts to Identify the issue or problem under consideration, but there is a lack of clarity or thoroughness.	0 points Does not identify the issue or problem under consideration.	/ 6
2.2.2: Evaluate sources of information on a topic for relevance and credibility.	6 points Evaluates sources of information thoroughly and appropriately on a topic for relevance and credibility.	5.1 points Evaluates sources of information on a topic for relevance and credibility.	4.5 points Attempts to evaluate sources of information on a topic for relevance and credibility, but there are gaps in the evaluation.	0 points Does not evaluate sources of information on a topic for relevance and credibility.	/ 6
2.3.1: State conclusions or solutions clearly and precisely.	6 points States well-conceived conclusions or solutions clearly and precisely.	5.1 points States conclusions or solutions clearly and precisely.	4.5 points Attempts to state conclusions or solutions, but they are not clear or precise.	0 points Does not state conclusions or solutions.	/ 6

Criteria	Exceeds Performance Requirements	Meets Performance Requirements	Approaches Performance Requirements	Does Not Meet Performance Requirements	Criterion Score
10.1.1: Identify the problem to be solved.	14 points Presents a relevant IT problem clearly and specifically.	11.9 points Presents an IT problem that requires a solution.	10.5 points Identifies an IT problem but may lack clarity and/or specificity regarding the need to be addressed.	0 points Does not identify an IT problem to be solved.	/ 14
10.1.2: Gather project requirements to meet stakeholder needs.	14 points Identifies IT project requirements in a thorough and clear manner to meet all stated stakeholder needs.	11.9 points Identifies IT project requirements to meet stated stakeholder needs.	10.5 points Attempts to identify project requirements to meet stakeholder needs, but there are gaps and/or lack of clarity.	0 points Does not identify IT project requirements to meet stated stakeholder needs.	/ 14
10.1.3: Define the specifications of required technologies.	14 points Defines thoroughly and clearly the specifications of required technologies.	11.9 points Defines the specifications of required technologies.	10.5 points Attempts to define the specifications of required technologies, but there are gaps and/or lack of clarity.	0 points Does not define the specifications of required technologies.	/ 14

Criteria	Exceeds Performance Requirements	Meets Performance Requirements	Approaches Performance Requirements	Does Not Meet Performance Requirements	Criterion Score
13.1.1: Create documentation appropriate to the stakeholder.	14 points Creates thorough and accurate IT documentation that exceeds requirements.	11.9 points Creates IT documentation that meets requirements.	10.5 points Creates IT documentation that lacks detail and/or does not fully meet requirements.	0 points Does not create appropriate IT documentation.	/ 14
13.2.1: Evaluate vendor recommendations in the context of organization requirements.	14 points Evaluate and provides detailed justification for vendor recommendations in the context of organization requirements.	11.9 points Evaluates vendor recommendations in the context of organization requirements.	10.5 points Attempts to evaluate vendor recommendations in the context of organization requirements, but some recommendations lack detail or do not consider context.	0 points Does not evaluate vendor recommendations in the context of organization requirements.	/ 14

Total / 100

## Overall Score

**Exceeds Performance Requirements**

90 points minimum

**Meets Performance Requirements**

80 points minimum

**Approaches Performance Requirements**

70 points minimum

**Does Not Meet Performance Requirements**

0 points minimum
