

10-1 Discussion: Assessments and Careers

In this discussion, you will reflect on what you have learned throughout the course to consider how assessments relate to your career goals.

Reflect on the material learned throughout this course and how it may apply to your career goals. In your initial post, address the following questions:

- How do you see assessments playing a pivotal role in your future career path?
- What role do you see technology playing in the future of assessments? How is it currently being utilized in your field?
-
