SUMMARY OF A PROFESSIONAL ARTICLE PROJECT #3

SUMMARY OF PROFESSIONAL ARTICLE

- **Locate a professional article, somehow related to an issue (of your choice) that is related to your college major and/or area of interest. The article must be a minimum of 3000 words, and must come from an academic journal or professional publication.**
- **Produce a summary of between 300-400 words. In order to meet the length criteria, you must endeavor to edit effectively.**
- **The original article must be attached to the submitted summary.**

***In order to earn full-credit, you must attach to your summary a copy of the article about which you are writing.**

***Note: A summary is a condensed “re-statement” of an extended idea or argument. A summary does not analyze a text; it simply, briefly restates it. Remember also that a Summary -- because it is the re-telling of another person's work/idea -- must include appropriate source citations.**
