e. Registration Fee

f. Maintenance/Year

g. Insurance/Year

h. Amount to Borrow

i. APR

j. Years

k. Loan Payment

l. Gas

m. Maintenance/Month

n. Insurance/Month

o. Total Monthly

- *Hint:* Select cells **B7:F24** and use Excel's **Create from Selection** command to create named ranges for each row using the labels at the left side of the range as the names.
- *Hint:* Open the **Name Manager** and review the names Excel created. Notice that any spaces or special characters in the label names are converted to _ characters in the names.
- *Hint:* To avoid typos as you create each formula, try using Formula AutoComplete to select the correct range name.

16. Before finishing the project, check the worksheet for errors.

17. Save and close the workbook.

18. Upload and save your project file.

19. Submit project for grading.
