

#13 Points possible: 1. Total attempts: 3

For each equation in the table, give the slope of the graph.

Equation	Slope
$y = -\frac{1}{4}$	<input type="text"/>
$x = -\frac{1}{4}$	<input type="text"/>
$y = -\frac{1}{4}x$	<input type="text"/>

If the slope is undefined, then type "undefined".

#14 Points possible: 1. Total attempts: 3

For each equation in the table, give the slope of the graph.

Equation	Slope
$x = -2$	<input type="text"/>
$y = -2$	<input type="text"/>
$y = -2x$	<input type="text"/>

If the slope is undefined, then type "undefined".
