

Project Part 6 ▾

- **Part 6 (Weeks 10, 11, 12)**

- Continue working on the project until it is completed.
- Use the Project Planner resource to help you organize your presentation.
- Post the video to the Project Presentation discussion area as an MP4 file or as a link to YouTube.
- Complete the Project Summary worksheet and include in your folder of documentation.
- Post the documentation to the Project Assignment area as ONE combined PDF or a Zip folder
 - Include any **notes** you took, **sketches** you made, a list of the **websites** you used and what you **learned** from them, a list of **phone calls** you made or **emails** you sent and what you found from these contacts, **photographs** of places you visited or researched, **visual evidence** (sketches, photos, short video, written description, etc.) of your prototype, and any other documentation or evidence of your research process. (photograph or scan any handwritten notes or sketches)
- Be certain you have posted the final project by the last day of Week 12.
