

Draw Two Vertical Sections which cross each other. Show cut lines in the top view. Make sure to mark which direction you are facing on the cut lines. Label Drawings and Cut Lines with either "Section 1" or "Section 2". Hatch the solid areas cut in the Section Drawings. Fill out the Title Block with the five required parts in every title block and use the assigned font for all text. Use proper line weights and chose a simple hatch—the material is undefined so there is no required hatch.
