**Due** Wednesday by 5pm      **Points** 80      **Submitting** a file upload  
**Available** Mar 20 at 7am - Apr 21 at 5pm

---

The demand for college graduates with data analytics skills has exploded, while the tools and techniques are continuing to evolve and change at a rapid pace. This case illustrates how data analytics can be performed, using Excel. As you analyze this case, you will be learning how to drill-down into a company's sales and cost data to gain a deeper understanding of the company's sales and costs and how this information can be used for decision-making. Please complete this case individually.
