

Change Project Writing Process

START

1 Identify and describe your change project

2 Set up a research question in PICOT format

3 Complete a review of the related literature

4 Define your aims, values, and desired outcomes

8 Write a project status report

7 Implement your project in the field

6 Write a Project Plan (timeline, measurement tool, budget)

5 Establish your Theoretical Framework

9 Analyze and write about your project outcomes

10 Add final sections: Intro & Summary/Conclusions

11 Present your project to staff, peers, and instructor

12 Submit final draft

END
