

## Course Assignments

### Research Learning Exercise |

There are two (2) Research Learning Exercise analysis assignments in this course (due weeks 6 and 8). You will examine the legal implications of nursing leadership/management practice within the healthcare system. Critique a research article from a reputable nursing professional journal and provide a comprehensive overview, analyze relevant legal issues, and your reaction and/or opinion of the article. **Writing Expectations**—3 to 4 pages, double-spaced, in length, not counting title page and references. APA format required (title page, citations in body of paper, and reference list). The steps of the problem-solving or decision-making model chosen should be used as subheadings for the paper. Each analysis should include a brief introduction and conclusion. Be sure to identify numerically which Learning Exercise is being analyzed.
