

Description:

Project Management

You are the project manager and need to compose an SOW for clients who want you to develop a Kickstarter.com site for their project, as discussed in the chapter.

- Start off by composing an SOW using a standard SOW template that you found and downloaded from the Internet. Use Tom's Planner (<https://www.tomsplanner.com>) or other free Gantt chart software to create a Gantt chart for your project. Share your Gantt chart for the project as an attachment and as an image - discuss how a Gantt chart can improve projects that you work on.

- Assume that after your clients review your SOW and Gantt chart, they request that you discount the price 20%. Based on the triple constraints, discuss how you would respond?

Discuss the concepts, principles, and theories from your textbook. Cite your textbooks and cite any other sources if appropriate.

Your initial post should address all components of the question with a 500 word limit.

Reply to at least two discussion posts with comments that further and advance the discussion topic.
