

This is a graded discussion: 50 points possible

due Oct 30

Discussion Board - Digestive Diseases

[Deirdra Chester](#)

Module 3

Discussion Board on Digestive Diseases.

Imagine that you are a community health worker in Prince Georges County.

You have been asked to speak at a high school about **Digestive Diseases**

Locate your name and the assigned topic in the chart below. Research your topic and prepare a video to virtually educate the students.

For the research. Use the following resources.

- Your textbook
- reputable .gov and .edu websites,
- <http://webmd.com/> and <https://www.niddk.nih.gov/health-information/digestive-diseases> (<https://www.niddk.nih.gov/health-information/digestive-diseases>).
- Be sure to state your references. **(5 points)**

Instructions are below.

Part A - A written transcript (150-300 words) must accompany the assignment. This can be used for closed captioning for hearing impaired persons. It should include all of the information below. **(15 points) This is not a transcript of your video.**

- Causes of the disorder
- Risk factors
- Symptoms
- Medical and /or nutrition management,
- Long-term effects of the disorder

Part B- 2–5-minute video on your assigned topic. Videos that exceed 5 minutes **will not be** graded. **(20 points)**

- **You must show your face** at least in the beginning as you introduce your topic.
- it must be your own voice throughout the video.
- You may use graphics, PowerPoints, animations, etc.

- You must cover all requested information

There are various ways to make a video presentation. Below are links to written instructions and a YouTube video on how to make a video PowerPoint presentation.

- <https://sites.reading.ac.uk/tel-support-for-students/2020/10/07/recording-a-presentation-for-submission-through-blackboard> (<https://sites.reading.ac.uk/tel-support-for-students/2020/10/07/recording-a-presentation-for-submission-through-blackboard/>)
- <https://youtu.be/D8JV3w4TOVw> (<https://youtu.be/D8JV3w4TOVw>)

Part C- Comment on a post written by two of your classmates. **(10 points).**

Write 3-5 sentences with comments regarding

- what new information you learned
- how you can reduce any risk factors for this disease
- You may also share an experience or pose a question to enhance further discussion

Locate your assigned Digestive Disease topic within the table below

Student Digestive Disease Assignment

Digestive Diseases	Student
