This is what you need to focus on. Tell the story of this problem.

DoD Prostate Cancer, Health Disparity Research award for USAMRAA organization

has Prostate cancer ^{*is a significant*} and health disparity ^{*are a primary*} concern ^{*for*} people ^{*around the*} and the world ^{*at large*} but have not been treated with the utmost care due to the fear of expression. Prostate cancer is a major ^{*in D*} in the United States of America, but ~~the~~ few patients are bold to seek medical attention in an ^{*earlier*} ~~earlier~~ stage of the disease. Earlier diagnosis and treatment plan ^{*for prostate cancer and*} ^{*early*} ^{*enough*}

This is not written clearly
 healthy other related disparity is critical to curing and handling these diseases. Many investments are required for effective treatment and identification of patients with prostate cancer; medical equipment and facilities also need upgrade^s and maintenance. The USAMRAA, an army-based organization in the united states of America, is keen on sponsoring patients with prostate cancer project prosperity. According to the previous grants, it is clear that the organization is willing to help the patients recover and identify the unwilling ones the need to start the treatment earlier. Patients most affected are the old age people without financial stability to sustain the expensive treatment process. The current diagnosis procedure takes many days to actualize the real problem; research institutions will be keen to quicken the diagnosis procedure and process.

Grant Purpose and Objectives

The primary purpose of establishing the grant generation procedure is to start nine research centers in the United States of America to help determine the appropriate ways of treatment and diagnosis of Prostate cancer. According to the research done by the Chicago University, one in ten people is diagnosed with prostate cancer. The disease is more common in old age people than for people lower than forty years. Innovation and research ^{are needed} to provide groundbreaking environment future researchers to improve the diagnosis and treatment. The funds will also be used to sensitize and mobilize the masses to seek medical attention on the onset of acute symptoms. Finally, the grant will support and maintain the organization for treatment and learning institutions for future generations. The organization is a public figure

Eligibility

The organization is eligible to apply for grants from the UNDP due to the ability and interests of the USAMRAA being similar to those of UNDP. The United Nations Development Program's main aim is to empower the poverty-stricken countries in various areas of health and education. The research institution will provide both the teaching ground and foster health conditions in many regions. UNDP is driven by the mandate of helping people in all levels of learning and development programs. The USAMRAA lies within this platform and forms as a partner for fulfillment of the cause.

Application Criteria - Don't need this in a statement of need

The application approach to this grant adopts the (eBRAP.org or Grants.gov) where there will be a pre-application to weigh and test the interests of the final application that aims to include all the interests and capability of the organization to utilize the grant accurately by sealing the loopholes of vandalism without prejudice. The criteria are open to the public, and any disagreeing individuals are welcomed to offer their grievances and offer suggestive ideas to help improve the application criteria. An application can be terminated if any form of conflicting interest is identified in the process of application is involved. The application process involved all the key members and their views incorporated into the final draft for submission.

Application Deadline - Don't need this in a statement of need

The application is within the required application deadline to offer grants by the UNDP, which is July 29, 2021. The importance of the submission earlier before the deadline is to give room for analysis of the offer and enough preparations for budgeting the funds to be received. The application deadline should have adhered to as it depicts the seriousness and how the organization will spend the funds on the right project and the need to finish on time.

Make sure you are writing clearly. It feels like some of your ideas are getting lost in your wording.

needs to be more clear

also unclear

Total Funding's to the USAMRAA Organization

To complete the project, the organization requires a total of \$10,800,000, and the UNDP total endowment is \$12 b. Considering UNDP gives grants to many organizations, but the amount necessary for the grants is much lower. With the amount required, the projects will make a groundbreaking investment that can start a research institution that can be a foundation for helping cancer many cancer patients and not only the prostate cancer patients.

Duration of the Project

By September 2027, the nine learning and research institutions will be completed and start serving society. The task force will be created to oversee the project's progress in the specified research institutions with good record-keeping for accountability and transparency of handling the funds. Periodical audits within an interval duration of six months will be carried out to help assess the project's viability. The project is expected to be complete even before the set duration to allow time for recap and corrections.

Alexis,

This statement assignment is really all about making a compelling case as to why the issue needs your solution. You have some good info, but the goal is to talk about the problem, in this case prostate cancer, in a way that conveys your understanding of the scale & scope of the issue, the possible causes of the issue, and the consequences of the issue. If your solution is to create research centers, then your statement needs to make that case by highlighting the need for more research. I'd like to see more data about the problem in the final draft.
