

10 SECTIONS

Make up

your culminating experience

evidence-based change project paper

1

Introduction and Background

Topic
Background
Why?
What?
Who?

2

Problem ID and Description Using PICOT Format

Significance at Facility
PICOT-
Population/Patient Problem
Intervention
Comparison
Outcome
Time

3

Critical Appraisal/ Integrative Literature Review

Scholarly - Cited in APA format,
5 years or less, peer-reviewed
New Knowledge
Gaps in Knowledge
Integrated - Not a summary list
of each source

4

Project Aims, Values, and Desired Outcomes

Goals
Benefits
Targets

5

Theoretical Framework

2 theoretical or conceptual
models
PDSA - Plan, Do, Study, Act

6

Proposed Evidence-Based Project Plan

Work Breakdown Schedule
Budget/Resources
Methodology
Evaluation Tools

7

Actual Outcomes/Evaluation

Cost Savings?
Improved Efficiencies?
Care Access?
Patient Satisfaction?
Staff Satisfaction?

8

Summary and Conclusions

Main Points
Findings
Significance to Field
Recommendations

9

References

All sources listed in APA format

10

Appendices

Supporting charts, graphs,
measurement tools, budget
spreadsheets, etc.

Review previous submissions and make sure to incorporate all instructor feedback.
