

I have reviewed your Health History submission and would like to go over it with you so you may improve your assignment before the due date. You can edit your assignment and resubmit it before the due date.

Under obstetrics, you want to ask your patient if they have children, how many, how were they delivered, if they suffered any miscarriages, when was their last menstrual period, are they in menopause, has she gotten a pap smear, what were the results of the pap smear.

I noticed you were missing your genogram. Do not forget to include that.

Under the Review of symptoms, you will use the same format as the guide provided but you would not just include "none" or only what she had. It should properly be written as " Skin: Denies or reports rashes, lumps, sores, itching, dryness, color changes in hair or nails" if your patient suffered from something and not the other you can say " Skin: reports rashes, lumps, sores, itching, dryness, Denies color changes in
