

Extraversion: outgoing, talkative, sociable

You scored **moderately low** on extraversion (29 out of 50).

You are probably often described as quiet and friendly. You can work well by yourself or in a group. You likely feel somewhat comfortable speaking up in a group or giving a presentation, but doing so may feel emotionally draining.

Agreeableness: affable, tolerant, sensitive, trusting, kind

You scored **moderately high** on agreeableness (39 out of 50).

You're probably described as kind and helpful. You prefer to avoid conflict and will often dodge situations or conversations that may upset other people. However, if confronted directly, you can speak up or stand your ground, though you may try to smooth things over afterward.

Neuroticism: anxious, irritable, temperamental, moody

You scored **low** on neuroticism (20 out of 50).

You're more likely to focus on the positive things in life and take issues in stride. You not only help encourage others but can also help stabilize a group. You're able to think calmly in stressful situations and you can probably think through a problem rationally or logically before reacting.
