

Unit 7 Assignment: Community Education

Due Date: 11:59 pm EST Sunday of Unit 7

Points: 100

Overview:

Over the past several weeks, you have researched a problem and some local services that may help a client in need. In many human service professions, you may work directly with clients to offer help in resolving specific issues, however, you may also work on educating the local community about that issue.

It is important to understand what information is important to share with your community in the hopes of educating others about a common problem your clients may face.

Instructions:

In this assignment, you are being asked to create a visual representation of the problem you selected for the Unit 6 Addressing Client Needs Paper. You can be creative in making your infographic by using graphs and charts in Word or PowerPoint or using [Piktochart](#) or [Canva](#). Whichever way you decide to create it, your visual representation must include the following:

- Description of the problem.
- Statistics about the problem.
- Underlying causes and impact of the problem.
- Description of the services clients may receive to resolve the problem.

Requirements:

- You can be creative with how you present the information.
- Incorporate all ideas into your own words.
- Use appropriate APA placement and style for in-text citations and references.

Be sure to read the criteria below by which your work will be evaluated before you write and again after you write.
