

Write a brief (300 word) personal reflection describing interprofessional collaboration during your experiences this quarter.

Reflect on your efforts as a team member to address the recent COVID19 Pandemic focusing on assigned topic.

Please include the following areas:

1. What professions did you interact with?
2. What challenges did the interprofessional team have to overcome to deliver competent care?
3. How did the interprofessional knowledge of COVID19 enhance the status of a client/population?
4. How might this experience affect your future practice?
