

Question 2

Convert the following if-else statements to switch case

```
if ((answer == "A") || (answer == "B"))
    bonus = bonus * 1.5;
else if (answer == "C")
    bonus = bonus * 1.2;
else if (answer == "D")
    bonus = bonus * 1.1;
else
    bonus--;
```
