

EDU 284 Student Self-Evaluation Form

My lesson plan was great in the following areas: Stimulated and maintaining interest, introducing concepts appropriately

My lesson plan could use improvement in the following areas:

Asking open ended questions, level of independence in planning

My teaching experience was great in the following areas: introducing concepts, preparing centers in advance, using calm voice.

My teaching could use improvement in the following areas:

Giving children sufficient time to explore. Some centers took longer than others in small group time.

I followed the activity on my lesson plan by:

Planning in advance the goals and objectives and following children's skills and abilities

I deviated from the activity on my lesson plan by:

Adjusting for varying skill levels of children.

If I taught this lesson (activity) again, I would definitely change:

Time management. Keeping children engaged at age 4-5 is a challenge. So ensuring ~~core~~ circle time is not too long and children lose interest, but also ensuring small group time gives children enough time explore.
