**THE DECISION RULE:**

1. ANY rule answered "yes"?  **HIGH PROBABILITY** of having a Substance Use Disorder  
 Check if Rx is 3 or more      High Probability of Prescription Drug Abuse

2. ALL rules answered "no"?  **LOW PROBABILITY** of having a Substance Use Disorder  
 Check if DEF is 8 or more      Elevated DEF scores increase the possibility of the SASSI missing individuals with a substance use disorder. Elevated DEF may also reflect situational factors.
