

Writing Activity #3

Final Assignment

Due Nov 15 by 11:59pm **Points** 4 **Submitting** a file upload

File Types pdf, doc, and docx

Submit this assignment here by the due date. Just a reminder that you will receive a 5% deduction for each day it's submitted late. Enjoy!

Instructions: Write a brief (~1 double-spaced page) response to the prompt below. You should do your best to use APA style for formatting and references. Tips on APA style formatting and references can be found [here](#).

We recently discussed several empirical articles in this course. For your third writing assignment, choose ONE of the following articles included in the module: Frenda et al. (2015) Sleep Deprivation and False Confessions; Costa & McCrae (1992) Personality and Psychopathology or Raynol & Chabrol (2016) Cannabis Use and Mental Health, and summarize the results and importance (why we should care about the results). Your submission should be about a page long and should conform to all APA standards, including a title page, numbers, references and in-text citations. Your submission will be graded, in part, on how well you attend to those details, so please take them seriously! Don't forget to provide some sort of introductory sentence for context!

Again, this is preparation for your Article Review Paper. Much of what you say for this writing activity can be copied into that paper. So, pretend like you're drafting it here to maximize its impact.

Tip: You might find it helpful to [use this worksheet](#) ↓

(https://lynn.instructure.com/courses/17478/files/2762041/download?download_frd=1) to organize your thoughts and reading of the article you choose before attempting this writing assignment.
