

This week you will implement your community project by sharing valuable material and content with community members. In addition to actually implementing your project, submit the deliverable you have shared with the community to address the identified issue, concern/problem. The deliverable should be a Handout/Flyer/Poster/Information Sheet, etc. and include:

- A brief overview of the topic to include what objectives the community members will achieve from implementation.
- Why the topic is important to the community and community members
- Share education and/or strategies community members can utilize to make a change.

The deliverable should be information that you have researched and included in an informational handout/flyer/poster/information sheet etc. Please do not copy and paste material. Any information included in the material that is from other sources needs to be cited in APA.

Assignment Week 5: Community Project Deliverable
