This assignment deals with concept analysis. The 2 articles below reflect an examination of concepts of compassion fatigue and moral distress in nursing respectively. Completing this assignment will provide you with an understanding of how nursing concepts are developed from within practice settings.

Assignment Instructions:

1. Choose and click on one of the following articles:

This article starts here

- Jenkins, B. & Warren, N. A. (2012). Concept analysis: Compassion fatigue and effects upon critical care nurses, *Critical Care Nursing Quarterly*, 35(4), 388–395.
 - [NUR511_U1_Concept_Analysis_article.pdf](#) 
- Russell, A. C. (2012). Moral distress in neuroscience nursing: An evolutionary concept analysis, *Journal of Neuroscience Nursing Volume* 44(1), 15-24
 - [NUR511_U1_Moral_Distress_Article.pdf](#) 

2. Read the article and address the following questions in a 3-5 page APA 6th edition formatted paper. Remember to use headings in your paper. An abstract page is not required.

- Define the concept
- Determine the setting in which the concept was analyzed
- What attributes or characteristics of the concept are noted
- Provide an example of the concept's presence in another situation
- Hypothesize how the concept could be further developed

**** Review the rubric below before beginning your assignment.**

Course Learning Outcome #4. Apply nursing theory to design and evaluate safe, effective, quality care that promotes human flourishing. (Program Outcome #1, 9)
