What traits may help the student's advancement? Sam's attention to detail and ability to accept criticisms and critiques of her work allows her to quickly correct any errors and move forward with a sense of confidence. Sam has a great working familiarity with how newly introduced accounting functions factor into her existing areas of expertise and this allows her to intuitively understand how they are meant to work.

What traits may hinder the student's advancement? At this point, I see no traits that keep Sam from accomplishing just about anything that comes up in our work time. Sam has even been able to take the difficulty of having a long commute and turned it into an opportunity to explore ways to telecommute and help determine tasks that do not suffer from lack of being in the office in person.

Additional remarks: As we've detailed, Sam has shown to be every bit the qualified candidate for this internship we believed she's be. We look forward to seeing how the Sam continues to take on the added challenges and information in the coming weeks.
