

BNT110 Introduction to the New Testament
Research Paper Proposal Worksheet

Name Sean Kraman

KCU Box # 215711

My Topic: Why do men have so much more authority than women. Are men really in control.

My Research Question: (The primary question you will seek to answer for the scholarly community.)

Is the husband the head of the household? Must wives be submissive?
Why is that

My Proposal: (A paragraph that describes what your paper will be about. This paragraph will fill me in on what you have ALREADY discovered in your preliminary research.)

I will be speaking about who has more control in the household and why? Men or women
And also why should wives be submissive and what does that actually mean.
I honestly think the husbands should run the house because as men its your
job to lead and take care of the family especially when you run into tough
and hard times.

My sources: (List five sources from Young Library which you have already consulted.)

1) Malachi McDaniel Academic Resource

2) Southern womanhood and slavery a biography of Louisa S. McLeod
1810-1879.
