

4. Describe the sociological, psychological, and biological theories of crime
5. Discuss the major categories of crime by categories of crime (property, people, public order, economic)
6. Describe political crimes, and terrorism as related to criminology

Core Assessment

Serial someone David Berkowitz

For CJ200, all students will complete an essay (term paper) which will reflect your effort to fully research a specific theory and apply the theory to your current or proposed occupation in the criminal justice field. The paper will be 5-7 pages (1,250 - 1,750 words), contain at least four (4) peer-reviewed academic sources, and will be written in APA format:

1. Fully define the occupation that you are currently employed or anticipate to be employed (to include promotional opportunities).
2. Determine one or two major criminological theories that you (or others) can apply in your occupation. This must include a complete definition and explanation of the theory (history, background, definitions, concepts, applications).
3. Apply your selected theory to your current or projected/selected criminal justice (or related) occupation(s).
4. Provide detailed examples of this application. (further details can be found in the Canvas course)

Schedule

4 Resources including the Book.
