

*Note: Follow the Competency Attached as per this Practical*  
**PHE 680 Milestone One Guidelines and Rubric (2 Pages) App A**

**Overview:** Milestone One is a draft of the introduction section of your project plan. It is due in Module Three. After you submit Milestone One, your instructor will provide you with feedback and guidance on how to improve your draft for your final project submission in Module Nine. Remember to incorporate the instructor's feedback for this milestone into your final submission for this course.

**Prompt:** In this assessment, you will be tasked with identifying a public health issue/problem with your practical experience preceptor. Part One of the final project will include the development of a problem statement and the methods for addressing the identified issue/problem. Through the successful completion of the practical experience, you will also apply a selection of five foundational competencies in public health to your final project.

Specifically, you must address the critical elements listed below:

1. **Introduction:** In this section, you will introduce the project you plan to complete in your practical experience. You will consider the scope of the project and identify key details such as the target population, social determinants of health that affect the population, and key goals. In your description of the project, include information about the resources you will need and who will be affected by the project implementation. In developing goals for your project, consult the SMART goal model. How will you know that you reached your goal?
  - A. Explain the concept of the project, including the scope and target population.
  - B. Explain how your project will support the mission of the practical experience site. In your response, you should consider the potential stakeholders who are impacted by the project.
  - C. Identify the goals of the project. In your identification, consider how the goals will positively impact the target population, and address the social determinants of health that may be impacted.
  - D. Identify potential barriers to completing your project. In your response, outline at least one way to overcome each barrier.

**Rubric**

**Guidelines for Submission:** Your milestone must be at least 2 pages in length (plus a cover page and references) and written in APA format. Use double spacing, 12-point Times New Roman font, and one-inch margins. ~~Include~~ at least one reference cited in APA format.

*He Follow the Competency attached about his practice* PHE 680 Milestone Two Guidelines and Rubric (2 pages) APA

**Overview:** Milestone Two is a draft of the competency plan of your project plan. It is due in Module Five. After you submit Milestone Two, your instructor will provide you with feedback and guidance on how to improve your draft for your final project submission in Module Nine. Remember to incorporate the instructor's feedback for this milestone into your final submission for this course.

**Prompt:** In this assessment, you will be tasked with identifying a public health issue/problem with your practical experience preceptor. Part One of the final project will include the development of a problem statement and the methods for addressing the identified issue/problem. Through the successful completion of the practical experience, you will also apply a selection of five foundational competencies in public health to your final project.

Specifically, you must address the critical elements listed below:

1. **Competency Selection:** You will consider your project goals and identify five public health competencies to apply to the project.
  - A. Describe the five public health competencies that apply to your project.
  - B. Analyze the chosen competencies in their ability to meet project goals.

**Rubric**

**Guidelines for Submission:** Your milestone must be at least 2 pages in length (plus a cover page and references) and written in APA format. Use double spacing, 12-point Times New Roman font, and one-inch margins. Include at least two references cited in APA format.

**PHE 680 Milestone Three Guidelines and Rubric**  
**Draft of Project Plan: Methods**

*(2 pages) APA*

**Overview:** The first part of the final project for this course is the creation of a project plan. As discussed in the Final Project Part One Guidelines and Rubric document, the project plan is divided into **three milestones**, which will be submitted at various points throughout the course to scaffold learning and ensure quality final submissions. These milestones will be submitted in **Modules Three, Five, and Seven**. The final product will be submitted in **Module Nine**. Milestone Three is the draft of the competency plan of your project plan, and it is due in Module Seven. After you submit Milestone Three, your instructor will provide you with feedback and guidance on how to improve your draft for your final project submission in Module Nine. Remember to incorporate the instructor's feedback or this milestone into your final submission for this course.

In this assignment, you will demonstrate your mastery of the following course outcomes:

- Apply public health methods of inquiry in evaluating real-world problems within a professional setting

**Prompt:** In this milestone, you will be tasked with identifying a public health issue or problem with your practical experience preceptor. Part One of the final project will include the development of a problem statement as well as the methods taken for addressing the identified issue or problem. Through the successful completion of the practical experience, you will also apply a selection of five foundational competencies in public health to your final project. Specifically, you must address the **critical elements** listed below.

- I. **Methods:** You will research and choose methods to address the identified problem and measure the progress of your project goals. In your research, look for current methods for assessing projects similar to your own. Please note that you will only be collecting secondary data for this project.
  - A. Select appropriate methods to measure the progress for meeting the project goals based on the research conducted.
  - B. Defend the chosen **methodological procedures** to evaluate project goals. In your response, consider why these are the best methods to use based on your project goals and target population.
  - C. Develop a **timeline** for implementing your methods.

**Rubric**

**Guidelines for Submission:** Your milestone must be at least **2 pages** in length (plus a cover page and references) and must be written in APA format. Use double spacing, 12-point Times New Roman font, and one-inch margins. Include at least two references cited in APA format.
