

HCA 340
Accountable Care Organizations
Written Assignment
Spring 2020

Please read all instructions carefully and fully prior to beginning the development of this assignment. The purpose of this assignment is to make sure you understand the basics of what an Accountable Care Organization is, its mission and how it structurally works. It is imperative that you read and understand the readings as found in the textbook authored by Sultz & Young. Specifically, the required text is found on pages 97-99, 111, 119, 226 and 375-376. Let me emphasize that you will be unable to successfully complete this assignment unless you comprehend the literature. Your discussion points should be composed in your own sentence structure...not a transcription of what is in the text. Again, I want you to demonstrate your understanding of ACOs and their function.

In developing this paper, you are required to submit a **2-4 page document, double-spaced, in 12 point Times New Roman font**. Further, you should follow standard **APA Guidelines**. This assignment will be graded for content, grammar and formatting.

Should you get caught up in some of the concepts (they can be confusing), then give me a call and we can have a discussion. In closing, allow me to convey to you that I want you to do well in completing this assignment. As you progress through your professional endeavors, you will encounter Accountable Care Organizations again. If you can get down the basics, you will be ahead of the game!
