

Provide a thorough examination of role(s) of Whites as it relates to multicultural education. Evaluate any unique contributions or perspectives might they be able to provide. Further, evaluate what potential conflicts may exist. Potential Resources May Include:

Stereotype threat is a real problem in US schools. Stereotyping is the process of making broad generalizations of an entire group based upon the actions of a small percentage of a group (EX. All Black males are good a sports.). Stereotype threat is when a marginalized group starts to prescribe to the belief of the stereotype (EX. There is no way I can do good on this exam because Black children don't test well.) For topic #2, provide a critical examination of stereotype threat in US schools and provide an implication for the future. Discuss research-based methods schools could employ to dismantle stereotype threat from US schools.

Provide a critical examination of any of the following (race, gender, sexual orientation, ability, or religion). You must provide an in depth view of an identified problem relevant to your chosen demographic as it relates to PreK-12 education. This should be followed by a research-based strategy or strategies schools can implement to ensure equity and equality for your chosen demographic.
