

EDU 284 Student Self-Evaluation Form

My lesson plan was great in the following areas: Preparation, stimulated and maintained interest, goals/objectives, and level independence.

My lesson plan could use improvement in the following areas: Using open ended questions, level of independence in planning process.

My teaching experience was great in the following areas: stating goals, materials provided, children showed interest, using calm voice, great pace.

My teaching could use improvement in the following areas: Showing enthusiasms while teaching organization. Staying on one topic before presenting the next.

I followed the activity on my lesson plan by: goals and objective based upon age, also the classroom daily schedule.

I deviated from the activity on my lesson plan by: watching and observing everyday program, and childrens interests as a group and independently.

If I taught this lesson (activity) again, I would definitely change:

The way the activity was presented. I presented this lesson while children were in the middle of learning something new from the supervising teacher. I could have created a lesson plan to include ~~what~~ what the children were already learning.
