DC'S LEGENDS OF TOMORROW

SEASON 2

After the defeat of the immortal villain Vandal Savage and the corrupt Time Masters who colluded with him, a new threat emerges in Season Two! Dr. Nate Heywood, an unconventional and

charming historian, is thrust into the action upon making a shocking discovery—the Legends are scattered throughout time.

Nate must find a way to rescue Season One's beloved team of heroes and rogues. This includes billionaire inventor Ray Palmer, who has created an exo-suit with the power to shrink him to minuscule size to become the Atom; Sara Lance, the White Canary, a trained assassin; Professor Martin Stein and Jefferson "Jax" Jackson, who together form the metahuman Firestorm; and Mick Rory, a.k.a. Heat Wave, a career criminal. When the Legends encounter the JSA (the Justice Society of America, the precursor to DC's Justice League) in the 1940s, Amaya Jiwe, a.k.a. Vixen, joins the team. While the team reunites, a mystery looms—the fate of former captain Rip Hunter.

Once reunited, the Legends continue their new mission to protect the timeline from temporal aberrations—unusual changes to history that spawn potentially catastrophic consequences. When Nate, the grandson of JSA member Commander Steel, unexpectedly finds himself with powers, he must overcome his own insecurities and find the hero within himself. Ultimately, the Legends will clash with foes both past and present to save the world from a mysterious new threat. *Season Two starts Thursday, October 13, at 8/7c!*
