

## Assignment Content

The three primary options for what to evaluate in performance appraisals are traits, behaviors, and results. What are the pros and cons of measuring each of these options? As a manager, which option would you choose? Do you think your option would be preferred by employee, rank, or industry?

The paper should have a short introduction for context. Then, the body of the paper would be divided into three paragraphs, one paragraph each for the pros/cons of each of the three options. Wrap your paper up with a discussion of the option you would choose.

Journal posts should be a minimum of 500 words and at least one supporting reference. Journal formatted APA, including a title page, reference page, and double-spaced.
