

- **Virtual Field Trip:**

-

- **Decide on the age group that you want to use for your lesson plan**
- **Choose one of the sites listed in the file in this unit titled Virtual Field Trip Options and go on a virtual Field trip. You will need to look up additional information following your field trip and put together a PowerPoint Presentation including a title slide with your name and the Title of your Field Trip plus at least 5 more slides with bullet points of information, pictures, graphs, etc.**
- **Look at the sample PowerPoint I included and the size fonts you need to use for slides. You do not have to use the same design I did. Be creative!**
- **Choose an age group and write a science lesson plan that would be a good follow up to the Field Trip**

Follow the example from the PowerPoint it tells you the font etc... make sure you cite your sources.

Virtual Field Trips Options

- San Diego Zoo

<https://www.weareteachers.com/virtual-field-trip-to-the-san-diego-zoo/>

- Seattle Aquarium and The Farm can both be found at

<https://www.weareteachers.com/best-virtual-field-trips/>

- The Secret Life of Coral *It is a nice trip to the Caribbean!*

<https://www.nature.org/en-us/about-us/who-we-are/how-we-work/youth-engagement/nature-lab/>

- Western River Expeditions through the Grand Canyon

<https://www.westernriver.com/360> Good Intro

http://vr.trustedphoto.com/WesternRiverGrandCanyon6_7_Day/360tour.html

Move the picture around to see 360 degrees the click on the map on the top right hand

Choose the next stop on the river

You will only see 360-degree photos but using the names of the stops you can find more information

For example, look up the Nankoweap Grannaries in Goggle to learn more. You can use what you discover as points in your PowerPoint presentation
