

PAPER PREPARATION WORKSHEET

Jerry Zheng

1. WHAT IS YOUR ENVIRONMENTAL JUSTICE CONFLICT?

A Chinese energy company produced serious pollution to local area, that poison local vegetation and rivers. The residents want the company can stop running because they worry their health issue.

where is this happening?

2. WHO ARE THE ACTORS OR COMMUNITIES THAT ARE INVOLVED IN THE CONFLICT? Please consider the role of government and non-government actors.

1. Journalists try to expose it
2. Environmental authorities
3. Chinese government ask they pay the fine

*Also the company
and
community!*

3. WHAT IS THE ENVIRONMENTAL CONCERN(S)?

Good!
Due to energy pollution, the fish in the local rivers died in large numbers, and residents did not dare to drink the well water they used to rely on.

4. WHAT IS THE JUSTICE ISSUE(S)?

Energy pollution in this form threatens the health of local residents and students.

5. WHAT POSSIBLE SOLUTION(S) OR RESOLUTION(S) CAN YOU SUGGEST?

In this way, companies need to strengthen supervision, because energy development should not be based on the premise of environmental damage. Sources of pollution should be kept away from residential areas, and factories should be placed in industrial areas, but this does not mean they can continue to pollute.
