

ISOL 536- Security Architecture and Design

Dr. Charles DeSassure, Adjunct Professor

What: Needs Assessment of a website

Week: 15 assignment

Visit a web site of your choice. Examine the web site by clicking the different links and reading the information.

- Report on an area of the web site that you feel can be improved. Sorry, but there's no perfect web site. Even with Google, there are a few things that can be improved.
- Write a summary and describe "What can be improved?"
- Provide your assessment about what aspect of the design ought to be improve.
- Use the template located on the course web site.
