For this assignment, you were asked to conduct a case analysis of Dr. Remoc's practices. I did want to discuss this assignment with you as your similarity score yielded a 97%. There are significant similarities between your submitted assignment and a assignments that had been previously submitted to the University suggesting plagiarism. Per the policy listed in the course room: Any work submitted by a student must represent original work produced by that student. Any source used by a student must be documented through normal scholarly references and citations, and the extent to which any sources have been used must be apparent to the reader. Re-submission of a work produced for one course in a subsequent course without the expressed written consent of the instructor, or the submission of work done partially or entirely by another may be considered to be academic dishonesty. As a result, I am unable to give you credit for this assignment submission.

(0.00 / 1.00) Explains the Connection Between Each Theoretical Orientation Used By Dr. Remoc And The Four Interventions Utilized In The Case

(0.00 / 1.00) Assesses The Efficacy Of Integrating Two Orientations Based On The Information Presented In The Case Study
