Due: Sunday night by 11:59 p.m. Pacific Time. Select the "Submit" button to submit your assignment. If you have questions about the assignment, post your question in the Course Café or contact your Instructor.

Assignment Overview

In this assignment, you will assess a current semi-direct or indirect nursing situation that is in need of change. Observe a healthcare environment, focusing on areas of the nursing process that are inefficient, unsafe, or problematic in nature. Diagnose the problem and choose a nursing change theory that suits the change(s) you want to make. Propose a detailed plan based on your chosen change theory, explaining how to implement change. Develop criteria to evaluate the effectiveness of the plan and include a timeline for your change proposal. Finally, reflect on how your change affects the nursing profession.

Assignment Details:

Perform the following tasks:

- Complete the reading assignment and the interactive lesson before attempting this assignment.
- Assess a current semi-direct or indirect nursing situation that is in need of change.
 - Observe your healthcare environment, focusing on areas of nursing process that are inefficient, unsafe, or problematic in nature.
 - Diagnose the problem and choose a nursing change theory that suits the change you want to make.
 - Propose a detailed plan based on your chosen change theory, explaining how to implement change.
