A Motorcycle Is Better Than Car for College Students

Good

delete this.

Is a Motorcycle better than a car for college students? This question has a lot of answers. These answers may be different from one person to another. There are a lot of sources for this topic. These reasons make the motorcycle better than the car for college students.

Begin here: much nicer intro

Yesterday, I drove my motorcycle heading to school. It was a beautiful autumn day, and I could feel the wind in my hair. I knew I would not have to worry about parking, unlike the people driving cars. I always park my motorcycle by the stadium. I had everything I need in my backpack. I love that feeling of freedom when I ride my motorcycle.

verb tense

what about the Bus?

College students need a ride to get to their classes. There are two types of a ride, either car or motorcycle. The first type, which is the car, is too expensive for a College Student. College Students do not have enough parking spaces to park their cars, so they are going to be late for their classes, and that is happening in my school (Tennessee Tech University). I have to go early one hour before my class starts. When I ride my motorcycle I feel more comfortable to park. A motorcycle does not require as much space to park. Also a motorcycle is cheaper than the car for College Students, so they can save some money for tutoring for classes or buying books. A Motorcycle is also cheap in gas. I put in \$10 of gas for a week. A Motorcycle has a cheap insurance which is 25\$ a month. A Motorcycle is cheap for service like changing oil, engine and tires. A motorcycle keeps you out of traffic if you faced it on your way. This is what makes the motorcycle better than the car for college students. ~~Motorcycles are better than cars for transportation to classes.~~
