

CASE 14

NATE MOWER & SON, RESIDENTIAL PLUMBER(S)

Nate Mower has worked as a plumber in the Minneapolis area for 20 years. Nate has operated his business as a one-man show and has also had as many as six employees working on two or three jobs at a time.

During the winter months, Nate traditionally works alone, servicing local residents with routine plumbing repairs, furnace maintenance, and frozen pipes. During the summer months, Nate takes on a few new home construction plumbing and heating installations that call for the help of additional workers.
