Homework Details!

(last call $\rightarrow$ lab time)

Lab- Brief photosynthesis expt.

- make a mural of

P.S. & Resp

* Test Friday *

handout given

chart of Photosynthetic pathways

(Photosynthesis)

1. Light dependent Reactions (e^- transport)

Sun E $\rightarrow$ USED to make
NADPH, ATP

2. Light independent Reactions

uses NADPH, ATP to make glucose

Calvin-Benson cycle
