Kids Want to Tan

Sun is the new tobacco: Why the young, especially, just can't quit

In winter, if there's something special going on—a friend's birthday party, say, or a family gathering at Christmas—Norah-Jean Howard, 19, heads to the tanning salon for a little color. In summer,

though, Howard might join friends around the pool, or maybe at the trampoline in the backyard, to make sure she keeps that **sun-kissed** glow. The alternative—pallor¹—is no alternative at all, and she doesn't spend a lot of time worrying about skin cancer.

¹ pallor: pale coloring of the face
