Write an essay that answers the following question: What career is college preparing you for?

Business administration and management is my major at the University of Montana. Currently, I am studying a wide range of business classes such as; Marketing, International Business, Management and organizational behavior...etc.

~~I am expecting~~

~~as~~

After graduating, I am expecting to be ready for holding managerial positions in small or large organizations. Also, as a holder of a business degree I am expecting to have the skills I need to own, operate and expand ~~on~~ my own business.

There are many different paths I can take with a business degree. Depending on which path I take like, organizing different kind of companies to operate my own business, I can find my ~~straight~~ ^{straight} line of success with ~~a~~ a degree in business.
