

HS110. INTRODUCTION TO EMERGENCY MANAGEMENT (HS110) &gt; TAKE ASSESSMENT: EXAM 3

 **Take Assessment: Exam 3****Name** Exam 3**Instructions**

Always pick the single best answer. Blank answers will be scored as incorrect.

**Multiple Attempts** This Test allows 2 attempts. This is attempt number 1.**Force Completion** This Test can be saved and resumed later.▼ **Question Completion Status:****Question 1** **2.5 points** [Save](#)

Public sector emergency managers only work for the federal government. True or False?

- True
- False

**Question 2** **2.5 points** [Save](#)

The country of Columbia's laws related to emergency management are more stringent than many states in the U.S. place on their local governments. True or False?

- True
- False

**Question 3** **2.5 points** [Save](#)

The recovery process typically involves unique and different tasks from the type of tasks that agencies perform as part of their normal duties. True or False?

- True
- False

**Question 4** **2.5 points** [Save](#)

The first benefit of the disaster assessment is to guide the:

- Short-term recovery
- Long-term recovery
- Short-term response
- Longer term response

**Question 5** **2.5 points** [Save](#)

Emergency response technologies have improved forecast and warning systems for a variety of different hazards. True or False?

- True  
 False

**Question 6****2.5 points**[Save](#)

Collaboration among jurisdictions within a region or between levels of government requires some degree of:

- Organizational standardization  
 Formal agreement  
 Resource separation  
 Process uniformity

**Question 7****2.5 points**[Save](#)

A full-scale exercise simulates a community-wide disaster by testing multiple functions at the same time. True or False?

- True  
 False

**Question 8****2.5 points**[Save](#)

The quality of emergency management in a country is related to the amount of available internal and external:

- Resources  
 Processes  
 Hazard insurance  
 Hazardous materials

**Question 9****2.5 points**[Save](#)

The quality of a country's infrastructure and housing affects the level of its disaster exposure. True or False?

- True  
 False

**Question 10****2.5 points**[Save](#)

Large businesses are more vulnerable to disasters than small businesses. True or False?

- True  
 False

**Question 11****2.5 points**[Save](#)

Professions exclude unqualified people by having membership rules about:

- Age and seniority
- Ethnic groups
- Education and training requirements
- Gender

**Question 12****2.5 points**[Save](#)

Developing preimpact plans for disaster recovery is important because:

- There will not be much time for recovery planning after disaster strikes
- FEMA mandates preimpact planning
- Funding is contingent on preimpact planning
- Response will be the focus after the disaster strikes

**Question 13****2.5 points**[Save](#)

The greatest advance in technology for emergency management has been the availability of:

- Geographical information systems
- Hazard modeling
- Global positioning systems
- Personal computers

**Question 14****2.5 points**[Save](#)

In the NFPA 1600 standard, the Direction, Control, and Coordination element requires establishing procedures:

- To respond to the hazards identified in the Hazard Identification, Risk Assessment, and Impact Analysis element.
- To assign functional responsibilities to specific organizations within the entity.
- For disseminating relevant information to the news media.
- To complete the recovery effort deploying only CERT members

**Question 15****2.5 points**[Save](#)

To mount a successful defense, it is unnecessary for a jurisdiction to document that it has a technically sound emergency plan. True or False?

- True
- False

**Question 16****2.5 points**[Save](#)

Property owners in disaster prone areas are being subsidized by the rest of the taxpayers. True or False?

- True

False

**Question 17****2.5 points**[Save](#)

The National Fire Protection Association (NFPA) Standards Council established a Disaster Management Committee in 1991 that developed standards for:

- 100 year flood mitigation
- Preparedness
- Building codes
- Land-use practices

**Question 18****2.5 points**[Save](#)

Countries that have sought a balance between centralization and localization of emergency management have seen less effective emergency management efforts as a result. True or False?

- True
- False

**Question 19****2.5 points**[Save](#)

Emergency management statutes vary widely among the states, as do the emergency powers that are available to address disasters. True or False?

- True
- False

**Question 20****2.5 points**[Save](#)

State and federal emergency managers have positions that are very much the same as those of local managers. True or False?

- True
- False

**Question 21****2.5 points**[Save](#)

In many poor countries, emergency management has been primarily reactive concentrating on relief after major disasters. True or False?

- True
- False

**Question 22****2.5 points**[Save](#)

In preparing for damage assessments, local government staff should be trained in a common assessment procedure. True or False?

- True
- False

**Question 23****2.5 points**[Save](#)

The armed forces are involved in emergency management to some degree almost everywhere. True or False?

- True
- False

**Question 24****2.5 points**[Save](#)

Emergency managers can use many of the common technology tools to quickly assess damage and send the information back to the EOC for:

- Disaster preparedness
- Disaster recovery
- Hazard mitigation
- Radiological contamination

**Question 25****2.5 points**[Save](#)

Households typically pass through two stages of housing recovery following a disaster. True or False?

- True
- False

**Question 26****2.5 points**[Save](#)

One of the functions that personnel performance appraisals serve is:

- Educational opportunities
- Public critique
- External research
- Legal protection

**Question 27****2.5 points**[Save](#)

In Europe, the Seveso II Directive requires the operator of each hazmat facility to develop an on-site emergency response plan and supply it to local authorities. True or False?

- True
- False

**Question 28****2.5 points**[Save](#)

Recovery begins when the emergency:

- Strikes
- Has been stabilized
- Is approaching
- Has passed

**Question 29****2.5 points** [Save](#)

Control over the allocation of resources in the LEMC is more limited than control over the:

- IMS
- LEMA
- CERT
- EOP

**Question 30****2.5 points** [Save](#)

Disaster recovery is both physical and social. True or False?

- True
- False

**Question 31****2.5 points** [Save](#)

A functional exercise differs from a drill because:

- It involves more people
- Less comprehensive than drills.
- The scenario is usually less complex.
- Exercises test people's ability to perform only taskwork

**Question 32****2.5 points** [Save](#)

The critical certification is the Certified Emergency Manager (CEM), which is offered through the:

- IMS
- IAEM
- FEMA
- LEMC

**Question 33****2.5 points** [Save](#)

When an emergency manager must make arguments to expand, or change your programs, you can use NFPA 1600 as the authoritative basis for your position. True or False?

- True
- False

**Question 34****2.5 points** [Save](#)

The growth of academic degree programs to support a profession represents:

- Maturing of that profession
- FEMA support of the profession
- Certifications are not available

International demand for the profession

**Question 35****2.5 points**[Save](#)

There are few international institutions devoted to promoting improved emergency management practices. True or False?

- True  
 False

**Question 36****2.5 points**[Save](#)

In emergency management legal liability, immunity is recognized unless it can be shown that some form of negligence exists. True or False?

- True  
 False

**Question 37****2.5 points**[Save](#)

A community is a specific geographic area. True or False?

- True  
 False

**Question 38****2.5 points**[Save](#)

Emergency managers are generalists who know where to find and how to request the services of specialists. True or False?

- True  
 False

**Question 39****2.5 points**[Save](#)

The FEMA staff have created a learning resource center and posted sample syllabi for a wide range of classes and developed full college courses with instructor guides, readings, exercises, field trips, and student notes. True or False?

- True  
 False

**Question 40****2.5 points**[Save](#)

The CAR program consists of standards that begin, at the highest level, with 13 emergency management functions adapted from:

- FEMA  
 NFPA 1600  
 IMS  
 SEMA
