

Paper topics (Ideas)

- Pick an extinct human group
- Neanderthal language?
- An aspect of human evolution
Le 2.2iet brain development, bipedalism)
- Technology + evolution
- Primates
- Evolution of language
- Migration

Neanderthal

bipedalism

The Modern Theory of Evolution

I. The "Synthetic" Theory of Evolution

A. Forces

1. Natural Selection

2. Genetic Drift

3. Mutation

changes in
allele frequencies

Large traits

B. Macroevolution

microevolution

small

C. Evolution happens in individuals

D. Wild cats; spotted + Plain

Rain forest

Savannah

Natural
Selection
