

Power Point Project #4—RESEARCH AND PRESENTATION

Draft Due date: November 5, 2014 (Homework assignment)

Presentation Due Date: November 12, 2014

TOPICS

History of an airline	The future of electronic technology
Lindbergh's flight	Amazing electronics
Career Planning	History of the cost & size of data storage
Aviation Mgmt in airlines or manufacturing	Robotics
Aircraft design & principles of flight	Wireless technology
Passenger travel into space	History of the transistor
The Wright Brothers	Integrated circuits

REQUIREMENTS

Select a topic from one of the several listed above.

Give a general description and interesting presentation of your topic.

POWER POINT PRESENTATION

Develop a power point presentation covering the points listed above as they apply to your subject. The presentation should include a cover slide, a table of contents slide, slides with the subject content and a compatible summary slide for the ending. Introduce graphics, photos or other visuals to highlight the subject matter. Grading of this project will emphasize the effectiveness of each slide as to letter size, readability, composition, visual appeal and ability to convey the basic message. Knowledge of the presenter on the subject and verbal skills during the presentation will be key elements assessed.

Homework assignment

Presentation should be about 10-12 slides. Print a copy with 4 slides per page and submit the draft version in class on November 5, 2014. This is counted as a homework assignment.

The draft will be returned to you at the next class meeting with comments, recommendations and constructive criticism. Revise and modify your power point presentation based on the instructor critique.

Presentation

Print the final copy with 4 slides per page and submit in class on November 12, 2014 to receive maximum points for "on-time" submittal. Save the presentation as an e-mail to yourself and on a USB storage device and be prepared to present this material during class on November 12, 2014. Due to the large class size presentations will be limited to 5 minutes.
