

Compare & contrast between the 2

both were early civilizations and began before Christ. Chinese and Egyptians ~~economies~~ relied on agriculture as a main source of a ~~good~~ economy. Chinese were skilled @ making silk @ the sericulture time where silk was first discovered. Silk was discovered Xianan. The Chinese were also famous for making pottery hence the name "Ancient pottery culture."

On the other hand, Egyptians were skilled @ ~~making~~ melting copper & farming along the Nile river. Both civilizations had an inherited ruling systems. The Chinese had emperors as rulers while Egyptians had pharaohs → they were considered gods as well and were worshiped so could rule & make commands. Both gave human sacrifices
