

Chapter 6 Cultural Geography Answer four of the following questions for 25 points each.

1. What are the components or subsystems of the three-part system of culture? What characteristics – aspects of culture – are included in each of the subsystems?
2. Differentiate between **culture traits** and **culture complexes** and between environmental **determinism** and **possibilism**.
3. In what way might religion affect other **culture traits** and the **cultural landscape** of a society?
4. How can European **colonization** still be seen in African countries' cultures today?
5. Why might one consider language the dominant differentiating element of culture separating societies?
6. How does **acculturation** occur? Is **ethnocentrism** likely to be an obstacle in the acculturation process? How do acculturation and **assimilation** differ?
