

Assignment I
Sociology 301.01
Out of Class Assignment
10 points
Due February 12, 2015 in class.

Choose a research topic from the list below. Choose three specific sub-topics/aspects of the topic you've chosen. You'll need to do some research on your own to flesh out three different aspects. For instance, if you were researching something like Homelessness you could choose the following sub topics: Homelessness and Gender, Resources for the Homeless and Elderly Homelessness.

In addition I want you to provide me three detailed links to resources that will assist someone who may be having challenges in the area that you choose to discuss. Think as a health and human services worker----what information would a client need to know to be able to access that service/resource?

This assignment should be 4-6 pages, proofread, with sources cited. You will need to use additional resources aside from your text.

Foster Care
Child Abuse Prevention
Child Neglect
