Assignment 2: Dropbox Assignment

Course Project—Part 3: Defining User Goals

This week, you will continue with the detailed assignment you started in **Week 1**.

In **Week 1**, you created a storyboard for your application, and in **Week 2**, you created a wireframe for the application. This week, you need to document user goals.

In the Microsoft Word document you created in **W2 Assignment 2**, add 2–3 pages to complete the following tasks:

- Perform a task analysis, and write the steps needed to complete the task. You can divide a task into subtasks. Use appropriate task scenarios.
- In your design, also consider the futuristic Google Glass or Microsoft Surface project and imagine how technology such as this could change your existing design.

As you work on the design, you can refer to the **Futuristic Technology** category in the **Webliography** to know more about these technologies.

Support your answers with appropriate examples.

Cite any sources in APA format.
